Hvordan bygge opp en platespiller	19

Kontrapunkt er HiFi-butikken for musikk- og filminteresserte!

Vi selger ikke watt og forvrengning eller før- og nåpriser, vi bruker ikke HiFi-begreper som hverken du eller vi forstår. Vår filosofi er enkel; Er opplevelsen av musikken og filmen bedre, da er løsningen bedre. Altså: - lyder det bedre, er det bedre. Derfor er det viktig at du finner du riktig forhandler, som kan vise deg den riktige løsningen!

Kontrapunkt har siden 1994 spesialisert seg på kvalitetsprodukter og løsninger som fokuserer på opplevelsen av film og musikk. Demonstrasjon er syretesten som bekrefter om kvaliteten på produktet lever opp til dine forventninger.

Uansett om du velger et enkeltstående musikkannlegg, et multiromssystem eller en hjemmekinoløsning, vil vi alltid levere og montere produktene hjemme hos deg samt optimalisere installasjonen slik at du er garantert full valuta for det musikkssystemet du har valgt.

Hvordan kan man bedømme og velge et HiFi -system? Noen snakker om bass, diskant, mellomtone, lydscene, dybde, gjennom-siktighet, plasseringen av anlegget.

Hos Kontrapunkt fokuserer vi på de primære karaktertrekkene ved musikk: – det vi hører når vi opplever musikken live. Vi mener at dette er de samme verdiene som avgjør kvaliteten for et HiFi-system.

Hvor tydelig og klart opplever du:

- Rytmen
- Melodien
- Harmonien i musikken
- Fremførelsen av musikken
- Det musikalske innholdet

Hierarkiet i et HiFi-system toppes av signal-kilden som er den viktigste komponenten for kvaliteten i musikkannlegget. Tapt musikalsk informasjon fra en dårlig signalkilde vil aldri kunne gjenskapes i senere ledd. Selv de beste forsterkere eller høyttalere kan ikke hente tilbake tapt informasjon. Derfor anbefaler vi systematisk at du først velger din signalkilde, om det skulle være platespiller, CD-spiller eller streamer.

Velkommen til oss for en demonstrasjon av din neste HiFi-løsning!

Complete Systems

Choose an integrated system for great performance in a simple package.

The Klimax System	<p>Klimax System Hub & Klimax 350 Speakers. The ultimate intelligent music system that delivers unparalleled sound and the best of everything Linn offers, in one complete, integrated package. System comprises a Klimax Exakt DSM player and a pair of Klimax 350 speakers.</p>	<ul style="list-style-type: none"> • Space Optimisation • Exakt • Katalyst • Integrated Exakt Modules • Precisely Crafted Cabinets • 3K Driver Array • Aktiv Servo Bass System • Surround Compatible 	673 500
The Akubarik System	<p>Akurate System Hub & Akubarik Speakers. With power and precision built-in, Akubarik will reignite a passion for music. System comprises an Akurate Exakt DSM player and a pair of Akubarik speakers.</p>	<ul style="list-style-type: none"> • Space Optimisation • Exakt • Integrated Exakt Modules • Precisely Crafted Cabinets • 3K Driver Array • Isobarik Bass • Surround Compatible 	346 400
The Akudorik System	<p>Akurate System Hub & Akudorik Speakers. With elegant curves and deceptively powerful sound. System comprises an Akurate Exakt DSM player and a pair of Akudorik speakers</p>	<ul style="list-style-type: none"> • Space Optimisation • Exakt • Integrated Exakt Modules • Precisely Crafted Cabinets • 3K Driver Array • Integrated Exakt modules • Surround Compatible 	232 600
The 530 System	<p>Akurate System Hub & 530 Speakers. Completely customisable, the 530 system is the perfect combination of impeccable style and sound. System comprises an Akurate Exakt DSM player and a pair of 530 speakers, with a choice of Linn Collection Fabriks.</p>	<ul style="list-style-type: none"> • Space Optimisation • Exakt • Linn Fabrik • Precisely Crafted Cabinets • Isobarik Bass System • Custom-Designed Drive Units • Integrated Exakt modules • Surround Compatible 	157 000
The 520 System	<p>Akurate System Hub & 520 Speakers. Compact and customisable, the 520 system exudes style and musicality. The Majik 140 System	<p>Majik DSM & Majik 140 Speakers. With powerful floor standing speakers and a hugely flexible DSM player, the Majik 140 system is a serious performer. System comprises a Majik DSM player and a pair of Majik 140 speakers.</p>	<ul style="list-style-type: none"> • Space Optimisation • Chakra Amplification • 2K Driver Array • Powered by Dynamik • Precisely Crafted Cabinets 	48 700

The Majik 109 System

Majik DSM & Majik 109 Speakers.
A compact package that delivers high-end sound without the need for floor standing speakers. System comprises a Majik DSM player and a pair of Majik 109 speakers

- Space Optimisation
- Chakra Amplification
- 2K Driver Array
- Powered by Dynamik
- Precisely Crafted Cabinets

39 700

The Kiko System

Kiko DSM & speakers.
Compact, flexible and surprisingly powerful. System comprises a Kiko DSM player and a pair of Kiko speakers. The Kiko system is available in Black, Silver, White or Champagne finish.

- Space Optimisation
- Powered by Dynamik

31 300

System prices include speakers in standard Linn finishes. If ordering Fabriks, high gloss or custom finishes for speakers, extra charges may apply (see next page)

Network Music Players

A Linn source makes any system sound better. Whether that's a network music player or an iconic LP12 turntable, you will experience an unparalleled performance from your audio system.

DSM Players

Klimax DSM

Combining the ground-breaking digital streaming performance of the Klimax DS with additional inputs for other sources, offering unrivalled performance and flexibility. Available in anodised silver or black finish.

- Streams any digital source over a standard network
- Integrates seamlessly with Tidal & Qobuz lossless streaming
- Plays Internet radio via Tuneln
- 7 digital & analogue inputs to connect your other sources
- Distortion-free digital volume control
- HDMI 2.0 connections (4K compatible)
- Surround Sound compatible
- Space Optimisation built-in

183 000

Akurate DSM

A powerful addition to any system, the Akurate DSM offers ultimate flexibility with inputs for other sources. Available in silver or black finish.

- Streams any digital source over a standard network
- Supports virtually any digital format up to 24-bit 192 kHz
- Integrates seamlessly with Tidal & Qobuz lossless streaming
- 14 digital & analogue inputs to connect your other sources
- HDMI 2.0 connections (4K compatible)
- Surround Sound compatible
- Front panel headphone output and AUX input
- Analogue outputs for connection to pre- or power amps
- Exakt Link for connection to Linn Exaktbox or integrated speakers
- Built-in MC / MM phono stage for connecting a turntable
- Space Optimisation built-in

86 700

Majik DSM

One box does it all: just add speakers. The combination of the Majik DS player, pre-amp and power amp, all in a single box, makes the Majik DSM hard to beat.

- Streams any digital source over a standard network
- Supports virtually any digital format up to 24-bit 192 kHz
- Integrates seamlessly with Tidal & Qobuz lossless streaming
- 15 digital & analogue inputs to connect your other sources
- HDMI 2.0 connections (4K compatible)
- Surround Sound Compatible
- Front panel headphone output and AUX input
- Exakt Link for connection to Linn Exaktbox or integrated speakers
- Built-in MM phono stage for connecting a turntable
- 90W per channel Chakra power amp
- Space Optimisation built-in

28 000

Selekt DSM: Streaming reborn!

Selekt DSM will revolutionise your interaction with digital music. It's a tactile and beautiful musical experience, better in every sense. It will make your system sound better and it will help you fall in love with your music all over again.

Selekt DSM

A dedicated streaming source for improved sound from any separates system.

Adding Selekt DSM to your system will make it sound better. And with Space Optimisation technology you get the best possible sound from your entire system configured just for you, no matter what speakers you have or where they're placed.

Selekt DSM includes a built-in pre-amplifier, enabling you to connect all your sources, including your turntable, to get better sound from them too... instantly.

Customisable smart buttons provide immediate access, directly from the product, to anything you want to hear - no matter the source. Streaming services, internet radio, podcasts, your turntable... the choice is yours.

With its modular, upgradeable design, your Selekt DSM can be adapted in the future as your needs change, either by increasing the performance by adding Katalyst or simplifying your system by adding integrated amps... just add speakers.

- Streams virtually any digital source over a standard network
- Supports formats up to 24-bit 192 kHz
- Space Optimisation built-in
- Six customisable smart buttons for immediate access to pinned content from any source
- Illuminated, jewel-like dial provides comprehensive control and feedback directly from the product
- Integrates seamlessly with Tidal & Qobuz lossless streaming services
- Plays Internet radio via TuneIn
- 10 digital & analogue inputs including HDMI ARC and USB Audio Class 2
- Built-in MC/MM phono stage for connecting a turntable
- Connect multiple Linn DSM players for a high performance multiroom system
- Analogue outputs for connection to pre- or power amps
- Exakt Link for connection to Linn Exaktbox or integrated speakers

Turntables

A Linn source makes any system sound better. Whether that's a network music player or an iconic LP12 turntable, you will experience an unparalleled performance from your audio system.

LP12 Turntables

Klimax LP12

The best of the best. Our flagship Klimax LP12 turntable offers the pinnacle of vinyl reproduction.

- Sondek LP12 turntable
- Keel machined sub- chassis and armboard
- Radikal motor control unit & power supply
- Brushed DC motor in acoustically isolated housing
- Ekos SE precision tonearm
- Kandid moving coil (MC) cartridge
- Urika II MC phono stage built-in to suspended base

218 000

Akurate LP12

With elegant design and exceptional performance, the Akurate LP12 turntable is loaded with upgrades to deliver stunning performance from vinyl records.

- Sondek LP12 turntable
- Kore sub- chassis and machined armboard
- Lingo power supply and motor control unit
- AC motor
- Akito tonearm
- Krystal moving coil (MC) cartridge

83 400

Majik LP12

The ideal first step into high performance vinyl playback, the Majik LP12 turntable uses carefully selected Linn-engineered components.

- Sondek LP12 turntable
- Aluminium Sub- Chassis and Armboard
- Solid Aluminium Base Board
- Internal Majik LP12 power supply
- 45 rpm adaptor
- Linn Adikt moving magnet (MM) cartridge
- Pro-Ject 9cc carbon tonearm

33 800

Speakers

Intelligent, upgradeable and built to the highest standards, Linn speakers don't follow the conventional path. Choose the elegance of an integrated speaker, or select a passive speaker with the freedom to add external separates.

Integrated Speakers

Klimax 350

Precision engineered and hand-finished by master craftsmen, the Klimax 350 is packed with a host of innovative Linn technologies, delivering ultimate listening experience.

- Ultra-low resonance, pressure-formed cabinet
- Exakt technology built in
- Connects via Exakt Link to any Exakt-enabled Linn network music player
- 6 channels of amplification per speaker
- In-house Katalyst DAC Architecture
- Patented Linn 3K Driver Array for wider dispersion, precise high frequency response and single-point source accuracy
- Aktiv Servo-Driven Bass system
- 3000 W of power amplification per speaker
- Standard and high gloss real wood veneer or bespoke colour finishes
- A choice of chrome or black finish on the 3K array

567 200

Akubarik

Inheriting the elegance and precision of the Klimax 350 combined with beautiful style and advanced electronics, Akubariks give stunning clarity and precision.

- Ultra-low resonance, pressure-formed cabinet
- Exakt technology built in
- Connects via Exakt Link to any Exakt-enabled Linn network music player
- Patented Linn 3K Driver Array for wider dispersion, precise high frequency response and single-point source accuracy
- In-house Katalyst DAC Architecture
- Aktiv Isobarik Bass system for more accurate bass
- Fully Aktiv integrated Chakra power amplification
- Standard and high gloss real wood veneer or bespoke colour finishes
- A choice of chrome/black finish on 3K Array

315 100

Speakers

Intelligent, upgradeable and built to the highest standards, Linn speakers don't follow the conventional path. Choose the elegance of an integrated speaker, or select a passive speaker with the freedom to add external separates.

Akudorik

Combining innovative design and beautiful engineering, the Akudorik is a unique stand-mounted speaker. The Akudorik speaker stand houses all of the amplification and Exakt engines.

- Ultra-low resonance, pressure-formed cabinet
- Exakt technology and Aktiv amplification built-in to the stand
- Connects via Exakt Link to any Exakt-enabled Linn network music player
- Patented Linn 3K Driver Array for wider dispersion, precise high frequency response and single-point source accuracy
- In-house Katalyst DAC Architecture
- Doped paper cone bass driver with symmetrical balanced drive applies even force to the coil in both directions
- Standard and high gloss real wood veneer or bespoke colour finishes
- Solid aluminium base plate with locking adjustable spikes for maximum stability
- A choice of chrome or black finish on

201 300

530 Speakers

The perfect combination of exquisite tailoring and powerful sound, 530 speakers are customisable to fit any style, in any room.

- Exakt technology built-in
- Connects via Exakt Link to any Exakt-enabled Linn network music player
- Aktiv Isobarik Bass system for powerful, accurate bass
- Fully Aktiv integrated Chakra power amplification
- Choice of 6 standard Fabrik covers plus special designer collections
- Cut glass stand and top plate in a choice of black or white finish

125 700

520 Speakers

The little sister to the 530, 520 speakers are designed to be personalised; the size and styling are subtle, but the performance will stand out.

- Exakt technology built-in
- Connects via Exakt Link to any Exakt-enabled Linn network music player
- Fully Aktiv integrated Chakra power amplification
- Choice of 6 standard Fabrik covers plus special designer collections
- Cut glass stand and top plate in a choice of black or white finish

89 300

Passive speakers

Klimax 350 Passive

Linn's best passive speaker provides stunning performance out of the box, and the flexibility to upgrade to the ultimate performance: Exakt.

- Built-in high quality passive crossover
- Upgradeable to Exakt
- Patented Linn 3K Driver Array for wider dispersion, precise high frequency response and single-point source accuracy
- Aktiv Servo-Driven Bass system
- Ultra-low resonance, pressure-formed cabinet
- Plasma-cut 'armour-grade' steel plate stand
- Standard and high gloss real wood veneer or bespoke colour finishes
- A choice of chrome or black finish on the 3K array

248 700

Akubarik Passive

Elegant and powerful, Akubarik Passive features a high quality passive crossover allowing for a connection to any amplifier.

- Built-in high quality passive crossover
- Upgradeable to Exakt
- Isobarik Bass system for rich, deep, accurate bass
- Patented Linn 3K Driver Array for wider dispersion, precise high frequency response and single-point source accuracy
- Ultra-low resonance, pressure-formed cabinet
- Standard and high gloss real wood veneer or bespoke colour finishes
- A choice of chrome or black finish on the 3K array

109 400

Akudorik Passive

A high performance bookshelf speaker, Akudorik Passive is the ultimate upgradeable speaker with both integrated and separate Exakt upgrade options.

- Built-in high quality passive crossover
- Upgradeable to Exakt
- Patented Linn 3K Driver Array for wider dispersion, precise high frequency response and single-point source accuracy
- Doped paper cone bass driver with symmetrical balanced drive applies even force to the coil in both directions
- Standard and high gloss real wood veneer or bespoke colour finishes
- Optional stand provides rock-solid support and adjustable spikes
- A choice of chrome or black finish on the 3K array

56 300

Speakers

Intelligent, upgradeable and built to the highest standards, Linn speakers don't follow the conventional path. Choose the elegance of an integrated speaker, or select a passive speaker with the freedom to add external separates.

Majik 140

A full-range, yet compact floor standing speaker, Majik 140 will bring your music to life without dominating a room.

- 2K Driver Array houses the two high frequency drive units
- High quality separate bass and mid drive units
- High quality custom-designed passive crossovers
- Simple upgrade path from single to multi-wiring/amping to fully Aktiv configuration in Exakt system
- Bass reflex port with rifled design for extended bass
- Solid aluminium upgrade stands available
- Standard and high gloss real wood veneer or bespoke colour finishes

20 700

Majik 109

This compact performer uses a bass reflex port, hidden behind the 2K driver array, to provide deep and musical bass without a large cabinet.

- 2K Driver Array houses the two high frequency drive units
- High quality 5" bass / mid drive unit
- Front-firing port
- High quality crossovers
- Simple upgrade path from single to multi-wiring/amping to fully Aktiv configuration in Exakt system
- Specially designed Majik 109 steel stand available
- Standard and high gloss real wood veneer or bespoke colour finishes

11 700

Majik 112

Majik 112 delivers exceptional clarity and dispersion using a compact and innovative design. This centre-channel speaker offers the perfect introduction to multi-channel or surround sound audio.

- Driver Array houses the two high frequency drive units
- Single bass driver reduces intermodulation distortion for consistent sound
- Front-firing port
- High quality crossovers
- Simple upgrade path from single to multi-wiring/amping to fully Aktiv configuration
- Standard and high gloss real wood veneer or bespoke colour finishes

9 060

System upgrades

Build and upgrade your system in a modular way that suits you.

Power Amps

Klimax Solo

Amplifier Type:

- Bipolar monoblock, 500 W

Technology:

- Dynamik Power Supply

Features:

- Bipolar design specific to the Solo
- Machined from solid aluminium
- Auto fault detection and protection
- Energy saving automatic signal- sensing circuitry
- Binding post or Neutrik speaker connections
- Available in silver or black finish

101 900

Klimax Twin

Amplifier Type

- 2-channel Chakra; 200 W per channel

Technology

- Dynamik Power Supply, Chakra topology

Features

- Machined from solid aluminium
- Automatic fault detection and protection
- Energy saving automatic signal- sensing circuitry
- Binding post or Neutrik speaker connections
- Available in silver or black finish

88 800

Akurate 4200

Amplifier Type

- 4-channel, 200 W per channel

Technology

- Dynamik Power Supply, Chakra topology

Features

- Balanced or unbalanced models
- Upgradeable with Aktiv crossover cards
- Auto fault detection and protection
- Energy saving signal- sensing circuitry
- Precision-engineered acoustic enclosure
- Available in silver or black finish

60 600

Akurate 3200

Amplifier Type

- 3-channel, 200 W per channel

Technology

- Dynamik Power Supply, Chakra topology

Features

- Balanced or unbalanced models
- Upgradeable with Aktiv crossover cards
- Auto fault detection and protection
- Energy saving signal- sensing circuitry
- Precision-engineered acoustic enclosure
- Available in silver or black finish

51 300

Akurate 2200

Amplifier Type

- 2-channel, 200 W per channel

Technology

- Dynamik Power Supply, Chakra topology

Features

- Balanced or unbalanced models
- Upgradeable with Aktiv crossover cards
- Auto fault detection and protection
- Energy saving signal- sensing circuitry
- Precision-engineered acoustic enclosure
- Available in silver or black finish

41 900

System upgrades

Build and upgrade your system in a modular way that suits you.

Majik 6100

Amplifier Type:

- 6-channel, 100 W per channel

Technology:

- Dynamik Power Supply, Chakra topology

Features:

- Upgradeable with Aktiv crossover cards
- Auto fault detection and protection
- Energy saving signal- sensing circuitry
- Available in silver or black finish

34 000

Majik 5100

Amplifier Type

- 5-channel, 100 W per channel

Technology

- Dynamik Power Supply, Chakra topology

Features

- Upgradeable with Aktiv crossover cards
- Auto fault detection and protection
- Energy saving signal- sensing circuitry
- Available in silver or black finish

30 900

Majik 4100

Amplifier Type

- 4-channel, 100 W per channel

Technology

- Dynamik Power Supply, Chakra topology

Features

- Upgradeable with Aktiv crossover cards
- Auto fault detection and protection
- Energy saving signal- sensing circuitry
- Available in silver or black finish

27 800

Majik 3100

Amplifier Type

- 3-channel, 100 W per channel

Technology

- Dynamik Power Supply, Chakra topology

Features

- Upgradeable with Aktiv crossover cards
- Auto fault detection and protection
- Energy saving signal- sensing circuitry
- Available in silver or black finish

24 600

Majik 2100

Amplifier Type

- 2-channel, 100 W per channel

Technology

- Dynamik Power Supply, Chakra topology

Features

- Upgradeable with Aktiv crossover cards
- Auto fault detection and protection
- Energy saving signal- sensing circuitry
- Available in silver or black finish

19 700

Exaktbox

Klimax Exaktbox

The on-board Exakt digital crossover delivers the most natural sound available by perfectly aligning all the frequencies produced by each note.

- 6 channels
- Features Katalyst DAC Architecture
- 1 Exaktbox supports up to 3-way speakers (stereo mode)
- Supports up to three-way dual mono
- 2 Exaktboxes support up to 6-way speakers (mono mode)
- Enclosure machined from solid aluminium
- Dynamik Power Supply

137 500

Akurate Exaktbox 10

Providing unprecedented flexibility, Akurate Exaktbox 10 delivers all the benefits of Exakt technology to your current speakers.

- Exakt digital crossover with 10 channels of DAC
- Supports up to 5-way speakers
- Balanced (XLR) and unbalanced (RCA) analogue outputs
- 2 Exakt Link connections
- Dynamik power supply

75 800

Akurate Exaktbox 6

Providing unprecedented flexibility, Akurate Exaktbox 6 delivers all the benefits of Exakt technology to your current speakers.

- Exakt digital crossover with 6 channels of DAC
- Supports up to 3-way speakers
- Balanced (XLR) and unbalanced (RCA) analogue outputs
- 2 Exakt Link connections
- Dynamik power supply

57 200

Majik Exaktbox-i

Combining all the benefits of Exakt with 8 channels of 100 W Chakra amplification, this amazingly versatile unit is capable of upgrading any Exakt-compatible speaker, up to 4-way. Connected using Exakt Link, it's the ideal partner for Majik DS or DSM.

- Exakt digital crossover with 8 channels of DAC
- 8 channels of 100 W Chakra amplification
- 2 Exakt Link connections
- 8 speaker outputs
- Dynamik Power Supply

49 400

Exaktbox Sub

Specifically designed for use with subwoofers, you can seamlessly integrate any subwoofer with an Exakt system, making the whole system phase linear down to 0 Hz.

- Digital crossover with 2 channels of DAC
- 2 Exakt Link connections
- Supports 2 subwoofers in mono mode
- Supports 1 subwoofer in stereo mode
- Compatible with all subwoofers

15 600

Custom install

Delivering a truly immersive listening experience with powerful performance and complete flexibility, Linn's custom install range has been created to be heard and not seen.

Source

Sekrit DS

Designed to impress with its sound, not its size, the Sekrit DS is a versatile player with built-in power amplifier and Space Optimisation.

- Streams any digital source over your network
- Supports virtually any digital format up to 24-bit 192 kHz
- Integrates seamlessly with Tidal & Qobuz lossless streaming
- Integrated 20 W per channel power amp
- Deltron speaker connections
- Space Optimisation built-in

13 800

Sekrit DSM

Designed to be heard and not seen, the Sekrit DSM is an incredibly powerful and flexible player with built-in pre and power amplifiers alongside digital and analogue inputs.

- Rack-mountable chassis
- Streams any digital source over a standard network
- Supports virtually any digital format up to 24-bit 192 kHz
- Integrates seamlessly with Tidal & Qobuz lossless streaming
- Digital & analogue inputs
- Speaker connections
- Integrated 33 W per channel power amp
- Configurable to power two speaker zones
- Neutrik speaker connections
- Space Optimisation built-in

20 100

Speakers

104C-R

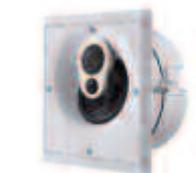

104C provides a more compact alternative to the 106C, making it a high performance yet flexible option for walls or ceilings.

- 3-way in-wall / in-ceiling speaker with acoustic enclosure for consistent high performance
- Available in round or square versions
- Quick and easy-to-install design enables fitting from the front
- 2K driver array provides wide and even high frequency dispersion
- Solid and cavity wall back-boxes and rough-in brackets available
- Paintable grille and enclosure (comes supplied with paint mask)

3 950

104C-S

104C provides a more compact alternative to the 106C, making it a high performance yet flexible option for walls or ceilings.

- 3-way in-wall / in-ceiling speaker with acoustic enclosure for consistent high performance
- Available in round or square versions
- Quick and easy-to-install design enables fitting from the front
- 2K driver array provides wide and even high frequency dispersion
- Solid and cavity wall back-boxes and rough-in brackets available
- Paintable grille and enclosure (comes supplied with paint mask)

3 950

106C

Our 3-way in-wall speaker with an Auxiliary Bass Radiator (ABR) for added performance and sealed acoustic enclosure.

- 3-way LCR in-wall speaker with acoustic enclosure for consistent high performance
- Quick and easy- to-install design enables fitting from the front
- Rotatable 2K driver array for use in portrait or landscape orientation
- Solid and cavity wall back- boxes and rough-in brackets available
- Paintable grille and enclosure (comes supplied with paint mask)

3 950

Sweetspot

A great solution for spreading quality sound evenly across larger areas.

- In-ceiling speaker with sealed enclosure for consistent high performance
- 80 mm (3.5") diameter fits alongside in -ceiling lighting
- Quick and easy-to-install design
- Paintable grille
- Water and corrosion resistant

1 850

Unik

Great audio performance from a compact and shallow enclosure, ideal for use discreetly mounted on walls.

- 2-way on-wall or free-standing speaker with bass reflex port
- Paintable grille
- Flame retardant, UV stable composite cabinet

1 750

Technology

Space Optimisation

Space Optimisation uses sophisticated acoustic modelling to build up a complete picture of how the speakers, their placement, and the unique characteristics of a room interact to affect the sound heard. It then precisely identifies frequencies that are artificially distorted by the environment, and reduces their energy, to reveal the music that would otherwise be hidden.

All Linn systems have Space Optimisation built in, and it's a free software upgrade to all Linn DS owners.

Exakt

Exakt technology preserves the natural sound of every instrument by synchronising the elements that make up every note, including all the harmonics.

Available through the addition of a Linn integrated speaker or Exaktbox to your system, it uses Exakt Link to connect to your Linn DS or DSM player. All current Klimax, Akurate and Majik models have Exakt Link connections on-board, ready for the ultimate system upgrade.

Katalyst

Katalyst takes an unprecedented level of control over the critical elements that lie at the heart of the analogue signal's creation; offering improved Data Optimisation, superior Master Clock, independent Power Supplies, a new ultra-low distortion Output Driver and crucially, for the first time, a high-stability input Reference Level.

The latter is vitally important because, at the point of creation, the analogue audio signal is particularly vulnerable even to minuscule variations in the Reference Level, which cause irreversible damage.

Katalyst's high-stability input Reference Level eliminates variations during analogue signal creation, giving a deeper insight into the music being played.

SPACE OPTIMISATION

EXAKT

KATALYST
DAC ARCHITECTURE

Utfordringen!

Det er stiftens bevegelser i platerillen som skaper musikken. Mikroskopiske bevegelser vertikalt og horisontalt generer en strømpuls som forsterkes opp av pickupen. Stiftens oppgave er å skille mellom musikk og vibrasjoner/resonanser fra platespillerdrivverket og pickup-arm. Platespillerens primæroppgave er å gi stiftens best mulig arbeidsbetingelser!

Hvordan bygge opp en platespiller?

Grunnlaget for en god platespiller ligger i drivverket og strømforsyningen. På samme måte som signalkilden alltid er øverst i stereoanleggets hierarki, vil platespillerens ulike komponenter og betydningen av disse kunne defineres på tilsvarende måte:

- Platespillerdrivverket inkludert strømforsyning
- Pickup-arm
- Pickup-element

Den viktigste komponenten er selve platespillerdrivverket. Desto bedre drivverk, desto mindre støy og hastighetsavvik videreføres til stiftens arbeidsbetingelser med færre uønskede vibrasjoner som igjen påvirker dynamikken og timingen i musikken.

Pickup-armens oppgave er å styre stiftens arbeidsbetingelser og ivareta energien med minimal påvirkning. Bedre pickup-arm gir bedre dynamikk og tydeligere musikkgjengivelse!

Med det beste drivverket og den beste pickup-armen vil den siste komponenten i platespilleroppsettet være valg av pickup-element. Vi har mange års erfaring og hjelper deg med å velge den beste pickupen til din platespiller.

Ferdig montert!

Vi monterer og justerer enten du kjøper du en komplett platespiller eller oppgraderer eksisterende spiller med ny tonearm eller pickup.

www.kontrapunkt.no
